

# CURRICULUM VITAE

## Personal information

<b>Full name</b>	<b>Łukasz Piotr Ostrowski</b>
<b>Address</b>	ul. Fabryczna 17B / 13 65-410 Zielona Góra
<b>Cell phone</b>	+48 733 133 396
<b>Date of birth</b>	1984-05-04
<b>E-mail</b>	l3vi4than@gmail.com
<b>Linked In</b>	<a href="https://www.linkedin.com/in/luke-ostrowski-56749410/">https://www.linkedin.com/in/luke-ostrowski-56749410/</a>

## Education

<b>2003 – 2008</b>	University of Zielona Góra Dept: Institute of Control and Computation Engineering
--------------------	--

## Professional experience

<b>2025-11 – now</b>	<u>BTC AG</u> - Electric Metering System for Power Grid Solutions
<b>2024-11 – 2025-06</b>	<u>Navigal</u> - Warehousing system, C#/SQL/WinForms
<b>2024-04 – 2024-10</b>	<u>Altium Ltd</u> – Maintenance and feature implementation of a CAD software for PCB design, migration from Delphi to C#.
<b>2024-02 – 2024-04</b>	<u>SMBC</u> – Processing of forex and market data, calculation of the daily carry values
<b>2023-09 – 2024-11</b>	<u>Auctane</u> – Package shipping software, research & development mostly and performance analysis
<b>2022-07 – 2022-12</b>	<u>Point72</u> – Stock/bonds/securities application development for a hedge fund.
<b>2018-01 – 2023-05</b>	<u>Roche Pharma</u> (on behalf of Millennium S.A) – IdM solution developer / maintainer, DevOps, tool developer and investigator,
<b>2013-06 – 2018-01</b>	<u>Roche Pharma</u> (on behalf of 7N sp z.o.o) – Developer/Maintainer for the in-house built IdM ecosystem (an internal HR / IAM System),
<b>2013-06 – now</b>	<u>Self-employed</u> – Developing and maintaining misc. custom software, bowling/darts leagues scoring software
<b>2010-06 – now</b>	<u>KTlnet</u> - .NET, C++, Java, miscellaneous utilities, custom built Instant Messaging, industrial-television solutions, a custom MES system
<b>2008-12 – 2019-01</b>	<u>Phantom</u> - .NET, C++, Java, XML, Web Services, EAI, eZoz – National Healthcare Fund oriented software,
<b>2005-05 – now</b>	<u>SMS Central</u> - .NET, ASP.NET MVC, JavaScript, CSS – A text-messaging communication platform

## Skills

<b>Programming</b>	C, C++, C#, Java, Object Pascal, JavaScript
<b>Libraries</b>	DevExpress, NHibernate, Hibernate, ASP.NET MVC, ASP.NET Web API, WebServices, Win32, WinForms, WPF, XHTML, CSS, JavaScript, jQuery, Entity Framework, Dapper
<b>Databases</b>	SQL Server, Oracle, Firebird, Postgres, SQLite, MySQL
<b>Tools</b>	Visual Studio, IntelliJ IDEA, Eclipse, Delphi, Office, Subversion, Git, Atlassian Suite, YouTrack
<b>Cloud Platforms</b>	TeamCity, Bamboo
<b>Cloud Platforms</b>	Microsoft Azure, mostly Storage/Database/App Service usage, along with Azure DevOps and Azure AD
<b>Environments</b>	Windows Server / Windows NT / *nices
<b>Methodologies</b>	Agile, Scrum, XP, Kanban, Waterfall

## Recent Projects

<b>MDM</b>	A hedge-fund application suite for investors in stocks/bonds/securities. Cross tech-stack, mostly Web Services/RESTful/Windows Services.
<b>Enroll</b>	Maintaining a legacy HR/IDM system - assigning accesses to misc. external systems (Active Directory, SAP, WebEx, etc.), managing passwords, employee information/lifecycle. Extending the application suite with new functionality, fixing bugs, integrating with other internal-corporate software. Currently in a DevOps team, as well, assisting the support, pinpointing bugs, general diagnostics and infrastructural tasks (upgrading middleware software, etc.). EAI patterns, building assisting-tools for the Operations team.
<b>Factoria</b>	Implementation of a ERP/MES (Industry 4.0) system for a large engine factory. Complex tracking of process progress, production status, and so on. SQL Server. WPF end-user applications based on DevExpress components, back-end components, system services, integration with SAP based underlying system.
<b>Lingua HD</b>	A CRM for an English-language-school for kids. Managing teachers, students, lesson schedules, warehouse states and orders of learning materials, like books. Simple book-keeping subsystem and regular reporting to the parent company.
<b>eZoz</b>	Maintaining and extending a complex desktop application for interoperation with the National Healthcare Fund (NFZ). CRM-patient-based, with lots of reporting. Heavily based on XML/XSD/XSLT data formats. DevExpress components for WinForms. Includes an Android project for doctors to query the NHF systems about the insurance status of a specific patient.
<b>BowlingZG</b>	Reverse-engineering external systems for data-interoperation/retrieval.
<b>SMS Central</b>	Bowling league management application suite, (.NET, SQL Server, Web API, WPF) A web application assisting with SMS communication with groups of people, based on ASP.NET, NHibernate, SharpArch, interoperations with SMS service providers, providing API for external users/systems.

## Languages

<b>English</b>	upper-intermediate level, fluent, both spoken and written (between C1 and C2)
<b>German</b>	novice level

## General Information

Mostly a .NET Software Developer and Architect, Team Leader. A fan of Extreme Programming, not necessarily that attracted to the all-popular Test Driven Development.

Focused on desktop applications and back-end development, though with extensive web application experience in both ASP.NET MVC and classic ASP.NET WebForms. Thorough experience in Enterprise Systems Integration, experience with miscellaneous external system, SAP/National Health Fund(NFZ)/WebEx/Java Applications(SailPoint) being prime examples, among others.

A lengthy background in C, C++, Object Pascal, Java and C# makes me a Software Developer/Engineer. Currently I'm mostly bound to C# as from my personal perspective it's the one of the most expressive languages around. At the same time I'm currently exploring Unity, Flutter/Dart, Blazor, Angular and React, as time allows.

I'm passionate and active. I strive to expand my horizons. Software Development is not just my job, it's my passion and my hobby. I love doing it. I enjoy human interaction, mostly international teams as I am really passionate about speaking the universal language of IT and that's obviously English.

*I agree to process my personal data in this document necessary in the recruitment process (According to Ustawa o Ochronie Danych Osobowych z dn. 29.08.1997 Dz. U. Nr 133 poz. 883).*
